Injection Moulding Machine Market Size, Share, Forecast 2021-2026

Hi Guys My name is Paul Flint and I am a Business Consultant & Market Intelligence in the company named Expert Market Research.

Written By: Paul Flint

INTRODUCTION

The [injection molding machine market](#) was valued at USD 16.72 billion in 2017 and is projected to reach USD 19.68 billion by 2023, at a CAGR of 2.9% during the forecast period. Injection molding machine is used to manufacture products made of plastics, rubber, metal, and ceramic. It consists of two main parts - an injection unit that is similar in function to an extruder; and a clamping unit that deals with the operation of the mold.
